Cuir fleur tanné au chrome, corrigé et pigmenté, teint en profondeur à l'aniline. Les peaux issues de peaux de taureaux d'origine européennes ont une surface moyenne de 5 m2 et sont merveilleusement souples et douces. Cette qualité se distingue par ses propriétés techniques et sa facilité d'entretien.

Le cuir est un produit naturel; chaque peau est une pièce absolument unique qu'il est impossible de reproduire. Les variations de coloris et de structure sont inévitables et sont autant de signes de son authenticité.
